Air Quality Department Dust Complaint Form  
-----

Reference Number: 2015112736451811

Business Name:

Violation Address: Western Maricopa County

Major East/West: western maricopa county

Major North/South: western maricopa county On the: Please Select Corner Corner

City: PALOMA

Violation Description: Why is it that the hay haulers in western Maricopa County allowed to haul --- on the dirt roads and create all kinds of dust, that eventually blows into the Phoenix area, yet the rest of us have to get permits, etc., etc., and are not allowed to burn our chimenas on certain days? Why don't the farmers have to water their haul roads? Not concerned with the actual 'harvesting' of the feed, just the 18-wheelers haulin' on the dirt roads adjacent to the farm fields - Gila Bend west to the county line, north of I-8 - sometimes the freeway is totally cloaked (choked) in dust that reduces visibility to zero!

Why is this allowed

Date: 11/27/2015 Time: 1:00
